## Family Tree

Have you ever seen a family tree, or do your parents already have one at home?

Making a Family Tree will help you have a good understanding about your family members and the characteristics of each member.

### Materials:

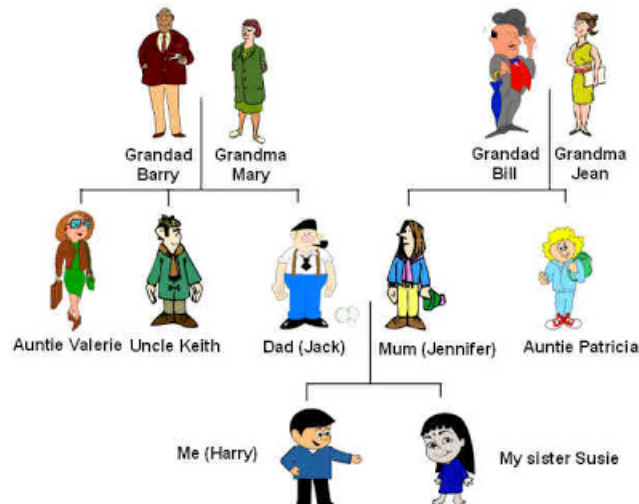

- Crayons, Color Pencils, or Markers
- Pencil or Pen
- Paper

### Instructions:

1. Use the Template below (or get creative and make your own family tree).
2. While making your family tree, talk to your parents, grandparents, or any one older than you to help build your family tree.
3. Use this time to connect with your family via phone or video chat, so they can give you more details of your ancestors.

**Get Creative!** And add your mother and father's siblings, along with their children (your cousins). Also, if any of YOUR siblings are married or have children go ahead and add them too!
