Snail Mail

Building relationships with your friends is one of the most crucial parts of being in school. It is harder to do during digital learning days, primarily if your friends differ in their access to technology. Here is a digital learning solution to continue building relationships and checking in on your friends.

Materials:

- Paper
- Pencil/Pen
- Envelope
- Stamp(s)

SNAIL MAIL:

Who doesn't love snail mail! Write a letter to a friend or family member. Everyone loves getting fun things in the mail, so start a snail mail chain while you're learning from home. It's a fun and creative way to keep in touch with your friends and it gives you an easy and effortless way to communicate with your friends who may not have access to a computer or phone. Your letter can be as creative and fun as you want, get creative and add color/drawings etc.

Reflection:

At the end of your letter/note tell your friends to "PASS IT ON" and see how long you can write letters to each other. It's a fun and easy way to bring a smile to a friend and brighten their day.
