Raised Salt Painting

Raised salt painting is an all-time favorite art activity that is loved by all ages. This simple art activity is so fun and easy that all you will need is glue, salt and watercolors. If you have not tried raised salt painting yet, now's your chance!

Materials:

- Card stock, cardboard or poster board (anything you have at home)
- Glue (Elmer's glue preferred)
- Table Salt
- Liquid Watercolors (if you do not have any, you can make your own by watering down food coloring)
- Paint Brushes

Directions to Do Raised Salt Painting:

1. Squeeze glue onto your card stock, cardboard, or poster board by making a design or picture.

2. Sprinkle with salt, until the glue is thoroughly covered. Tip paper to let excess salt fall away.

3. Dip your paint brush into the liquid watercolor paint, then gently touch to the salt-covered glue lines. (Watch the paint "magically" travel in both directions!)

4. Let it dry thoroughly.

Once dry, display your new artwork!

You can do so many cool techniques with this, like, write names, motivational quotes, make rainbows, or valentine cards, as well as make nature scenes, squiggles and scribbles, the list is endless!!
