Car Toilet Paper Roll Craft

It's time to get creative and think outside the box. This project is easy and fun for anyone that enjoys repurposing things. Let's get ready to have fun with this and just dive in.

Materials:

- Toilet paper tube (or cardboard tube cut in half)
- White paint
- Paintbrush
- Scissors
- Hot glue/gun
- 4 lids or pouch caps
- Markers, stickers, or paint

Instructions:

1. Cut a U shape in the cardboard tube to make the opening for toys to sit in the car. Fold the U up and cut it again to make it smaller.
2. Paint the toilet paper tube white and set it out to dry.
3. Let kids decorate their cars with markers, stickers, or paint
4. Hot glue the wheels on and it's ready to play with.

MODIFICATIONS/VARIATIONS:

*For additional fun, make multiple cars to race against each other. Use a board to tip up and have them to roll down together at the same time. Experiment with different accessories of a variety of weights.
