## California Poster

In this activity you will learn the geography of California and learn information about the state you live in. You will research and create a poster of the facts you discover about the state. You will learn what the state flag looks like and the state bird. You will practice your drawing skills and be familiar with the state you live in.

### Materials:

White poster or large piece of paper  
Markers  
Computer  
Pencil  
Scissors  
Glue

### Instructions:

1. You will use the internet to research the state bird, flag, flower etc.... you will use the attach template and fill it out with fun facts you learn about California.
2. To make things more challenging cut the piece of white paper into the shape of California.
3. You will draw the state symbols on your white piece of paper. If you have access to a computer and printer you can print the images and glue the to the paper.
4. Fill up the entire white paper with images/ symbols that represent the state of California.
5. Color the drawings
6. After you finish your poster share it with your family and tell then about the facts you learned about the state of California.
